

Marco Bonifacio

Administration and Customer Support Professional
Northampton, UK | 07913 558871 | seanmarcobonifacio@gmail.com

PROFESSIONAL PROFILE

Customer-focused administrator with experience delivering front-line support, managing sensitive records, and coordinating high-volume services in a fast-paced NHS environment. Brings calm communication, strong attention to detail, and reliable Microsoft Office and digital systems skills, with a consistent focus on service quality, accuracy, and confidentiality.

CORE STRENGTHS

- **Customer Service and Communication:** Front-line support, empathy, professionalism, and clear communication with patients, staff, and external contacts.
- **Administration Accuracy:** Precise data entry, record updates, scheduling, and GDPR-compliant handling of sensitive information.
- **Systems and IT:** Confident with Word, Excel, Outlook, digital record systems, and practical spreadsheet and process improvement.
- **Adaptability and Problem Solving:** Calm handling of queries, prioritisation, and quick adaptation across departments, teams, and systems.

PROFESSIONAL EXPERIENCE

Clinic Coordinator and Receptionist | Northampton General Hospital | Nov 2023 - Present

- Managed clinic administration and confidential patient records across five hospital departments, adapting quickly to different workflows, teams, and operational processes.
- Used AI-assisted tools and Excel/VBA to build an appointment and clinic schedule tracker, improving visibility and day-to-day coordination.
- Supported meetings and administrative process improvements to streamline workflow, reduce manual handling, and improve schedule tracking.
- Acted as a first point of contact for patients and staff, handling sensitive queries professionally in a fast-paced NHS environment.
- Maintained accurate records for 50+ patients per shift while supporting multidisciplinary teams and upholding NHS and GDPR standards.

Event Administration and On-site Support | Eclipse Invitational Scoring Platform | 2026

- Helped coordinate on-site setup for a two-day gymnastics competition, including venue screens, audience QR-code access, and public display workflow.
- Acted as the main score-entry administrator during the event, entering results accurately and monitoring live displays throughout the competition.
- Provided live issue resolution and operational support to keep score input, screen output, and event information running smoothly.

EDUCATION

University of Northampton - BSc (Hons) Games Programming | 2022 - 2024

Developed strong analytical, technical, and problem-solving skills, including project management and data handling.

Abbeyfield School Sixth Form - A-Levels (AAA) | 2019 - 2022

A-Level focus included Computer Science, supporting strong digital literacy and structured problem-solving.
